WETSUITS
FUZION

« I'm looking for the very best wetsuit. »

"I've been training like crazy for the whole year, I'm not going to compromise on any of my equipment"

"Every second counts"

I want a wetsuit with the most advanced features (in terms of buoyancy, flexibility, fast transition, drag reduction and hydrodynamics) to perform in the best conditions.

WETSUITS
FLEX

"I feel too restricted in my wetsuit, around my arms and shoulders"

"Honestly, I think I would have preferred a non-wetsuit swim..."

I want more flexibility for a natural stroke and faster swim.

WETSUITS
ARCHI

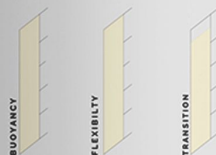

"This is my 1st triathlon and I'm afraid of drowning"

"I'm too muscular and keep sinking"
"I feel like a stone in water"

I'm a triathlete looking for buoyancy mostly to improve my swim.

Our new 2025 wetsuits range has been totally revamped to highlight our exclusive technologies and specs that make our wetsuits stand out in the water! Sleek new designs and enhanced aesthetics will confirm the ultimate quality and performance of the whole range.

FUZION

TECHNOLOGIES

- 01** The Giga Stretch Jersey ensures an amazing flexibility for a smooth and natural stroke. 
- 02** Yamamoto #40 neoprene is one of the highest quality neoprene grade for optimized comfort and performance. 
- 03** Our specific Neutral Arm Position design offers great mobility around the shoulders for an unrestricted swim. 
- 04** The Water Grip Panel Max is an exclusive 3D developed panel with neoprene inserts in relief for an efficient catch phase and increased speed. 
- 05** Our ReversZip allows for a faster transition when exiting the water whilst preventing any unwanted opening during the swim stage. 
- 06** The Ti Speed Technology gives triathletes the best possible odds for an ultra fast transition following the water exit. 
- 07** The Nano SCS (Super Composite Skin) ensures great hydrodynamics while reducing surface drag. 
- 08** The Aerodome Technology considerably improves buoyancy for an optimal body position on the water surface. 

FUZION: "I'm looking for the very best wetsuit". I want a wetsuit with the most advanced features (in terms of buoyancy, flexibility, fast transition, drag reduction and hydrodynamics) to perform in the best conditions.

- WETSUITS -

WETSUITS FUZION MAN & WOMAN

The Fusion wetsuit will suit triathletes looking for a good compromise between flexibility and buoyancy. This model combines these two criterias in a powerful wetsuit for demanding triathletes. This wetsuit is entirely made in Yamamoto #38, #39 & #39 AERODOME neoprene, which thicknesses vary between 1,5 and 5 mm depending on the body part.

SRP: 549€

Panel	Material	Thickness	Skin Coating	Interior
MAIN BODY (Chest - Back)	#38	5	SCS	SuperMesh
UPPER CHEST	#38	4	SCS	SuperMesh
THIGH	#39 N°1 (Super)	5	SCS Nano	SuperMesh
BACK/SLEEVES	#39	1,5	SCS	MagiMesh
UNDERARM PLATE	#39	1,5	SCS	MagiMesh
ARMED LOWER LEGS	#38	3	SCS	SuperMesh

- 10 -

- WETSUITS -

WETSUITS
FUZION MAX
 MAN & WOMAN

The Fuzion Max wetsuit aims at delivering the very best to maximize the triathlete performance. It has been designed and developed to provide an amazing flexibility together with an optimized buoyancy. It features a reversed zip for a faster transition and a specific design to take it off as fast as possible.

This wetsuit also provides our GripPanel technology on the forearms and shins. Those specific areas are critical for the stroke propulsion and this is why we placed these panels this way.

WETSUITS
FLEX MAX
MAN

The Flex MAX is the high-end wetsuit of this family. It is made of the most flexible materials on the market. We have selected extremely elastic neoprene and also taken into account the jersey elasticity which matters a lot! No matter how stretchy a neoprene material is, if the inner lining has limited elasticity, the overall result will not be great.

This is the reason why our Flex MAX wetsuit combines both highly flexible neoprene and jersey so that the stroke remains natural without any sensations of restriction around the arms.

Part	Material	Thickness	Heat Coding	Innerliner
MAIN BODY Shoulder Yarnal	FSB	5	SCS	SuperStretch
UNDER CHEST	FSB	5	SCS	SuperStretch
THORNS AERONEONE	FSB	5	SCS+Neon	SuperStretch

WETSUITS / FLEX SLEEVELESS MAN

The FLEX Sleeveless man wetsuit is inspired by our FLEX range, featuring great flexibility on the upper body thanks to the Mega Stretch jersey namely.
Entirely made in Yamamoto 39 neoprene with a SCS coating, it ensures comfort and hydrodynamics with low resistance.
This sleeveless option will satisfy triathletes from a strong swimming background, beginners with a low budget or fearing the restrictive feeling of a sleeved wetsuit plus triathletes racing in warmer water temperatures.

RANGE

Introducing the new Elite range, specifically designed for ultimate performers in both short and long-distance races. This fresh collection features brand-new fabrics, innovative technologies, and cutting-edge designs, offering high-speed garments dedicated to superior performance. The men's and women's sleeveless trisuits will be ideal for short distance competitions, while the sleeved trisuits will revolutionize aerodynamics on longer races.

The amazing quality combined with the exclusive characteristics of our new technologies will ensure a competitive edge on race day. Experience unmatched aerodynamics, enhanced performance, and the latest in fabric technology with the all-new Elite range.

ELITE
TECHNOLOGIES

- 01 The new AeroFLUX MAX fabric revolutionizes aerodynamics for a performance faster than ever! 
- 02 Breathable, water repellent, super light woven French fabric. 
- 03 The Revo Comp fabric features an outstanding resistance ensuring that the garments stay in shape along the race. 
- 04 Specific moisture management fabric made in Italy, to keep your skin dry. 
- 05 Smooth bindings around the neck and arms for minimal friction and maximum comfort. 
- 06 Seamless assembling technology to improve both the aero and hydrodynamics. 

TRIATHLON
ELITE

elite TTSUIT

The new elite TTSUIT takes aerodynamics to an even higher level of performance. Tested in wind tunnels, this ultra-fast sleeved trisuit offers unparalleled speed and efficiency with longer sleeves and legs, contributing to enhance air flow and reduce drag. Featuring carefully crafted French fabrics with the new AERO FLUX MAX technology on the sleeves and upper torso & back, and proven Water Wear Weapon fabric on the sides, the Elite TTSUIT ensures unmatched performance. To make sure aerodynamics are maximat, 2 inside nutrition pockets have been integrated down on the torso on each side of the zipper. With its advanced fabric technology and enhanced design, the Elite TTSUIT is the ultimate choice for serious triathletes aiming for victory.

TRAINING
MEN'S APPAREL

Z3ROD Shorts are ideal for warm weather. They will provide you with a wide range of motion with their mid-thigh length cut. You can also wear the shorts for any workout session. You will feel particularly comfortable thanks to its stretchy fabric!

The Elite Pants will provide great comfort, flexibility and durability. They feature a drawstring at the waist, 1 zipped pocket on the right thigh and a regular pocket on the left one. They offer a casual look, allowing to stretch easily whatever the circumstances and move freely for a relaxed and modern look.

TRAINING
WOMEN'S APPAREL

The tank top with wide openings around the arms provide a great freedom of motion together with breathability, as opposed to a regular t-shirt. This breathability is also guaranteed by the wide open back. The elastic band on the shoulders ensures that the straps stay in place and do not fall down. This training top is incredibly light and comfortable.

The sport legging is another training basic that comes in addition to the tanktop. We decided to use a light and flexible fabric for maximum comfort. We also placed mesh on specific areas on the calves for breathability, lightness and aesthetics.

ACCESSORIES
CYCLING

Cycling and running can be challenging in winter as your body is exposed to the cold for long periods of time. Z3ROD Arm Warmers and Leg Warmers are the perfect protection from the cold, constantly maintaining your body's natural temperature.

Sweat evaporates quicker than on any other comparable fibre, keeping your body dry. Long-lasting and ultra-resistant Z3ROD Warmers are a must-have for any athlete!

LEG WARMERS
SRP: 45€

OVERSHOE
SRP: 50€

TOE COVER
SRP: 25€

Made of neoprene the Z3ROD Overshoes are 100% windproof and waterproof. These will keep the cold away from your feet during your winter rides.

Toe Covers are ideal for your fall and spring rides, when the cold is waiting to seize your feet in the descents or when going through a humid forest! They have a hole so that you can clip your pedals easily.
